

SCOTTISH WATER CHARGES SCHEME

made under section 29A of the Water Industry (Scotland) Act 2002

PART 2

WHOLESALE CHARGES

**for the Supply of Water and Sewerage Services
for the Fiscal Year 2012-13**

**Effective from
1 April 2012**

1 SCOTTISH WATER'S WHOLESALE CHARGES

1.1 Introduction

This is Part 2 of the Charges Scheme for 2012-13 that Scottish Water is required to make under Section 29A of the 2002 Act. This Charges Scheme has been approved by the Water Industry Commission for Scotland as required by Section 29A of the 2002 Act.

This Charges Scheme applies for the financial year 2012-13 to all Water, Sewerage and Trade Effluent services provided to Licensed Providers at Supply Points registered under the Market Code.

Part 1 of the Charges Scheme contains the methodology which sets out the detail of how these charges will be applied. This Part 2 must therefore be read in conjunction with Part 1.

To the extent that this Part 2 of the Charges Scheme is inconsistent with any agreement binding upon Scottish Water, the charges specified in the agreement will prevail subject to any specific allocation of any wholesale/retail element of those charges in terms of Part 1 or Part 2 of this Charges Scheme.

Definitions for terms within this Part 2 are included in Appendix 1 of Part 1. **The numbering used for each charges section in this Part 2, mirrors that used in Part 1.**

A water re-sale statement, required under Section 30 of the 1980 Act, is set out in Appendix 4 of Part 1. This details the maximum charges for services provided with help of Scottish Water and explains how Licensed Providers' customers should approach water re-sale with their end-user.

3.1.5 The Water Volumetric Charge

(All rates in (p/m³))

Standard Volume Charges	Potable¹	Non-Potable
Allocated Tranche	0	0
Greater than the Allocated Tranche up to and including 250,000m ³	68.61	40.96
Greater than 250,000m ³ up to and including 1,000,000m ³	57.93	31.86
Greater than 1,000,000m ³	35.56	15.22

¹ In 2012/13 phasing adjustments will apply to the Standard Volume Charges shown above (not to the Capacity Volume Charge) for Supply Points supplied that continue to be supplied through a LUVA agreement that was in force in 2006/07. The following adjustments will apply to the charges that relate to the share of volume above 100MI measured at the Supply Point (sum of all measured consumption) in the Fiscal Year: 100 – 250MI -13% 250MI – 1,000MI -11% >1,000MI +9%. The phasing adjustments have increased (in total) since the last Charges Scheme to achieve a more cost reflective level of charge.

Capacity Volume Charges²	Potable	Non-Potable
Capacity Volume Charge (applied to the Capacity Volume and is additional to the Standard Volume Charge)	50.44	41.06

3.2 Field Troughs and Drinking Bowls

The following charges apply:

Type of Supply Points	£ / annum
Farm	£120.49
Crofts & Registered Small Holdings	£78.52

3.3 Outside Taps

The following charges apply:

Type of Supply Points	£ / annum
Farm & Other Supply Points	£120.49
Crofts & Registered Small Holdings	£78.52

² In 2012/13, in relation to water charges for measured connections supplied through water meters with a tariff meter size of <=20mm and unmeasured Supply Points for which a <=20mm meter has been assigned through assessment or re-assessment, the capacity volume charge and the standard volume charge, applied to the volume between 20m³ and 100m³ only, will attract a phasing premium of +31.9%. The phasing premium has reduced since the last Charges Scheme to achieve a more cost reflective level of charge. The premium will not apply to connections at LUVA Supply Points. The premium will not apply to 0mm meters.
