

Table B5.4S: Demand forecasts: wastewater service: line definitions

Block A – Properties

1	Number of unmeasured domestic properties	000 (3dp)
Full line title	Number of unmeasured domestic properties – wastewater service	
Definition	Average number of billed unmeasured domestic properties. Exclude void properties.	
Processing rules	Input field	
Reference	AR A3.1	

2	Number of measured domestic properties (with standing charge)	000 (3dp)
Full line title	Number of measured domestic properties (with standing charge) – wastewater service	
Definition	Average number of billed metered domestic properties. Exclude void properties.	
Processing rules	Input field.	
Reference	AR A3.14	

3	Number of unmeasured non-domestic properties	000 (3dp)
Full line title	Number of unmeasured non-domestic properties – wastewater service.	
Definition	Average number of billed unmeasured non-domestic properties. Exclude void properties.	
Processing rules	Input field	
Reference	AR A3.73	

4	Non-domestic billed measured sewage collected	000 (3dp)
Full line title	Number of non-domestic properties billed measured sewage collected	
Definition	Average number of billed measured non-domestic properties. Exclude void properties.	
Processing rules	Input field	
Reference	AR A3.26	

5	Void properties	000 (3dp)
Full line title	Number of void properties – wastewater service	
Definition	Average number of properties within the wastewater area which are connected to the sewerage system but do not receive a charge as there are no occupants	
Processing rules	Input field	
Reference	New	

Block B – Population

6	Population – domestic properties billed unmeasured sewage collected	000 (2dp)
Full line title	Average population – domestic properties billed unmeasured sewage collected	
Definition	Average resident population in households billed for unmeasured sewage collected.	
Processing rules	Input field	
Reference	New	

7	Population – domestic properties billed measured sewage collected	000 (2dp)
Full line title	Average population – domestic properties billed measured sewage collected	
Definition	Average resident population in households billed for measured sewage collected.	
Processing rules	Input field	
Reference	New	

8	Population – non-domestic properties billed unmeasured sewage collected	000 (2dp)
Full line title	Population – non-domestic properties billed unmeasured sewage collected	
Definition	Average resident population in non-domestic properties billed for unmeasured sewage collected.	
Processing rules	Input field	
Reference	New	

9	Population – non-domestic properties billed measured sewage collected	000 (2dp)
Full line title	Average population – non-domestic properties billed measured sewage collected	
Definition	Average resident population in non-domestic properties billed for measured sewage collected.	
Processing rules	Input field	
Reference	New	

10	Population total	000 (2dp)
Full line title	Billed population total	
Definition	Total average resident billed population connected to the sewerage area.	
Processing rules	Calculated field: the sum of lines 6, 7, 8, 9	
Reference	New	

Block C – Sewage collected – volumes

11	Volume unmeasured domestic properties sewage collected	MI/d (2dp)
Full line title	Volume unmeasured domestic properties sewage collected	
Definition	Volume of water delivered to domestic properties billed for unmeasured water that is returned to sewer.	
Processing rules	Input field	
Reference	New	

12	Volume unmeasured non-domestic properties sewage collected	MI/d (2dp)
Full line title	Volume unmeasured non-domestic properties sewage collected	
Definition	Volume of water delivered to non-domestic properties billed for unmeasured water that is returned as domestic sewage to the sewer.	
Processing rules	Input field	
Reference	New	

13	Volume measured domestic properties sewage collected	MI/d (2dp)
Full line title	Volume measured domestic properties sewage collected	
Definition	Volume of water delivered to measured domestic properties, returned to sewer.	
Processing rules	Input field	
Reference	New	

14	Volume measured non-domestic properties sewage collected	MI/d (2dp)
Full line title	Volume measured non-domestic properties sewage collected excluding trade effluent	
Definition	Volume of measured non-domestic properties sewage collected. Excluding trade effluent	
Processing rules	Input field	
Reference	New	

15	Volume trade effluent collected	MI/d (2dp)
Full line title	Volume of trade effluent	
Definition	Volume of trade effluent discharged to the sewerage system.	
Processing rules	Input field	
Reference	New	

16	Total volume of sewage collected	MI/d (2dp)
Full line title	Total volume of sewage collected	
Definition	The total volume of sewage collected at sewage treatment works. This includes all domestic and non domestic sewage, trade effluent, septic tank and cesspool waste.	
Processing rules	Input field	
Reference	New	

17	Volume returned to sewer – measured domestic properties	% (1dp)
Full line title	Volume returned to sewer – measured domestic properties	
Definition	Percentage of water delivered to measured domestic properties assumed to be returned to sewer, for billing purposes.	
Processing rules	Input field	
Reference	New	

18	Volume returned to sewer – measured non-domestic properties	% (1dp)
Full line title	Volume returned to sewer – measured non-domestic properties	
Definition	Percentage of water delivered to measured non-domestic properties assumed to be returned to sewer, for billing purposes.	
Processing rules	Input field	
Reference	New
